

## Visy Board Dandenong wins gold medal for print excellence!

Visy has been recognised for achieving the highest standard of printed packaging.

Awarded a Gold Medal in Print Excellence for a T'Gallant Rose Shipper and a Silver Medal in Print Excellence for the Wolf Blass Red Label Cab Sauv AFL Promo Shipper, both were produced for our customer Treasury Wine Estates.

These high quality flexographic cartons were entered into the 2017 Flexible Packaging and Label Manufacturers Association (FPLMA) Australian Packaging Awards and prizes were announced at a gala awards night held just recently.

This award was won in the first year of operation of our new Gopfert Evolution RDC printer, located at Visy Board Dandenong. This new printer features 6 colour printing including UV varnish capability and has been installed as part of our business wide investment in high quality print capability. This machine in particular, with its enhanced print quality and die-cutting capability, provides an improved on shelf appearance promoting our customers' brands.

All winning submissions will be entered into internationally recognised packaging competitions including the World FFTA awards which recognises the best flexographic printing globally.

A big congratulations and thank you to all staff at Visy Board Dandenong for printing such eye catching, stunning graphics on the Gopfert Evolution 6 Colour RDC.

*Dave Manning – High Quality Flexo Manager*

*Printer/Operators at Dandenong (L-R) Ali Husen, Butch Dalipovsig, Caleb McElhinney (Printer), Leo Mynit, Aslan Lumani, Blair Jonuzovski*
